

ROOTED

Spiritual Growth Portal

Functional Testing Manual

Try and verify every function, one step at a time

"Let your light shine before others, that they may see your good works." — Matthew 5:16

SECTION 0

Before you begin

This manual lets one person test every function of the ROOTED portal from top to bottom. Work through each numbered test in order, follow the steps, and compare what you see against the expected result. Tick PASS or FAIL and jot any problems in the Notes line so they are easy to report.

What you need to get started

- A phone, tablet, or computer with a web browser.
- The web address of your published app (or the preview link).
- The Leadership password, to test the admin functions.
- About 20–30 minutes to go through everything once.

Two accounts make testing easier

Create one ordinary member account and one leader account. That way you can submit something as a member, then switch to the leader to review and approve it — exactly how it works in real life.

SECTION 1

Accounts & signing in

1. Create a new member account

AUTH

Steps

- Open the app and go to the Sign up page.
- Enter a full name, an email address, and a password (at least 8 characters).
- Tap "Create account".

Expected result

You are signed in immediately and land on the Dashboard — no confirmation email or waiting. Your first name appears in the welcome greeting.

☐ PASS ☐ FAIL Notes: _____

2. Duplicate email is rejected

AUTH

Steps

- Sign out, then go to Sign up again.
- Try to register using the same email you just used.

Expected result

The app refuses to create a second account and shows a clear message. Your original account and name are left untouched.

☐ PASS ☐ FAIL Notes: _____

3. Sign out

AUTH

Steps

- While signed in, open the account/profile menu.
- Choose Sign out.

Expected result

You are returned to the login screen and can no longer reach member pages.

☐ PASS ☐ FAIL Notes: _____

4. Sign back in

AUTH

Steps

- On the Login page, enter the email and password you registered.
- Tap "Sign in".

Expected result

You are signed in and returned to the Dashboard.

☐ PASS ☐ FAIL Notes: _____

5. Wrong password is refused

AUTH

Steps

- On the Login page, enter your email with a deliberately wrong password.
- Submit.

Expected result

Sign-in fails with a clear error, and you stay on the login page.

☐ PASS ☐ FAIL Notes: _____

6. Request a password reset

AUTH

Steps

- On the Login page, tap "Forgot password?".
- Enter your email and submit.

Expected result

You see the same reassuring message whether or not the email exists (this protects members' privacy). See the note on email delivery in Section 6.

☐ PASS ☐ FAIL Notes: _____

7. Set a new password from the reset link

AUTH

Steps

- Open the reset link from the email (see Section 6 if emails are not yet delivering).
- Enter a new password twice and submit.

Expected result

Mismatched passwords are refused. When they match, the password is changed and you are signed straight in. An expired or reused link shows a clear 'request a new one' notice.

☐ PASS ☐ FAIL Notes: _____

SECTION 2

Member features

8. Dashboard overview

MEMBER

Steps

- Sign in and view the Dashboard.

Expected result

You see your day streak, a count of active disciplines, your submission count, the memory verse, the four growth areas, and a list of recent community activity.

☐ PASS ☐ FAIL Notes: _____

9. Browse activities

MEMBER

Steps

- Open "Activities" from the menu.
- Scroll through the four growth areas: Faith, Action, Ministry, Evangelism.

Expected result

Activities are grouped under their growth area, each showing its point value and how often it should be done (daily / weekly / monthly).

☐ PASS ☐ FAIL Notes: _____

10. Write a journal entry

MEMBER

Steps

- Open Journal.
- Fill in the entry and, if you wish, mark it private.
- Submit.

Expected result

The entry is saved and enters review. A private entry is never shown in any public community list.

☐ PASS ☐ FAIL Notes: _____

11. Submit a Bible study reflection

MEMBER

Steps

- Open Bible Study.
- Write a reflection and submit.

Expected result

The reflection is saved and enters the review queue for leadership.

☐ PASS ☐ FAIL Notes: _____

12. Browse the Lessons list

MEMBER · LESSONS

Steps

- Open "Lessons" from the menu.

Expected result

Every lesson a leader has published is listed as a card showing its title, a short summary, its scripture reference, and how many questions it asks. Retired lessons do not appear.

☐ PASS ☐ FAIL Notes: _____

13. Open a lesson and read it

MEMBER · LESSONS

Steps

- From the Lessons list, tap a lesson to open it.

Expected result

The lesson opens showing (in order) the teaching video if one was added, a 'Scripture to read' card, a 'Reading instructions' card, and a 'Your answers' section listing each question with a text box beneath it.

☐ PASS ☐ FAIL Notes: _____

14. Watch the teaching video

MEMBER · LESSONS · VIDEO

Steps

- On a lesson that has a video, press play.

Expected result

The teaching video plays inside the lesson. Lessons without a video simply omit the video block — nothing looks broken.

☐ PASS ☐ FAIL Notes: _____

15. Answer the questions and submit

MEMBER · LESSONS

Steps

- In the 'Your answers' section, type an answer into each question's box.
- Tap "Submit for review".

Expected result

Your answers are saved, a confirmation message appears, and the lesson now shows a 'Pending' status. Submitting with every box empty is refused with a clear message.

☐ PASS ☐ FAIL Notes: _____

16. Reopen and update your answers

MEMBER · LESSONS

Steps

- Return to a lesson you already submitted.
- Change one of your answers.
- Tap "Update my answers".

Expected result

Your previous answers are pre-filled so you can edit them. After updating, the button reads 'Update my answers' (not 'Submit'), and the response returns to 'Pending' for the leader to review again.

☐ PASS ☐ FAIL Notes: _____

17. Record a confession

MEMBER

Steps

- Open Confessions.
- Write your entry and submit.

Expected result

The confession is submitted privately for leadership; it is not shown publicly.

☐ PASS ☐ FAIL Notes: _____

18. Submit a prayer request (text only)

MEMBER

Steps

- Open Prayer Requests.
- Write a request. Leave it public, or mark it private.
- Submit.

Expected result

The request is saved and enters review. Once a leader approves a public request, it appears in the community list. Private requests never appear publicly.

☐ PASS ☐ FAIL Notes: _____

19. Attach a video to a prayer request

MEMBER · VIDEO

Steps

- On the Prayer Requests page, start a new request.
- Attach a short video recorded on, or saved to, your device.
- Submit.

Expected result

The video uploads successfully (up to the size limit). It is shared privately with leadership only and never appears in the public feed.

☐ PASS ☐ FAIL Notes: _____

20. View the prayer schedule

MEMBER

Steps

- Open Prayer Schedule.

Expected result

The 24-hour prayer slots are shown, each with its time, focus, and who has joined.

☐ PASS ☐ FAIL Notes: _____

21. Share a testimony

MEMBER

Steps

- Open Testimonies.
- Write your testimony and submit.

Expected result

The testimony enters review. After a leader approves it, it appears in the Recent testimonies list for everyone to be encouraged by.

☐ PASS ☐ FAIL Notes: _____

22. Check your profile

MEMBER

Steps

- Open My Profile.

Expected result

Your name, email, role, join date, and day streak are shown, along with a count of your submissions across each of the four growth areas.

☐ PASS ☐ FAIL Notes: _____

SECTION 3

How submissions become public

Anything a member submits (testimony, prayer request, journal, etc.) starts as pending. It only becomes visible in a community list after leadership approves it. The next test proves that end to end.

23. Member submits, leader approves, it appears

END-TO-END

Steps

- As a member, submit a testimony with a memorable title.
- Confirm it does NOT yet appear in the Recent testimonies list.
- Sign in as a leader, unlock Leadership (Section 4), and approve that testimony.
- Return to the Testimonies page as a member.

Expected result

Before approval the testimony is hidden from the public list; after approval it appears for everyone. This confirms the review gate works.

☐ PASS ☐ FAIL Notes: _____

SECTION 4

Leadership (admin) functions

The Leadership Console is a separate portal

- Leadership is no longer part of the member menu — members see no trace of it. Reach it by going to the /admin web address directly (bookmark it).
- Two things are required: you must be signed in as a member AND enter the Leadership password.
- Sign up as normal, sign in to the console, then use 'Make leader' on your own member card.
- Change the Leadership password after your first sign-in — the starter password should not stay in use.

24. Sign in to the Leadership Console

LEADER

Steps

- While signed in as a member, go to the /admin web address.
- On the sign-in screen, enter the Leadership password and tap 'Enter console'.

Expected result

A standalone sign-in screen appears (marked 'Restricted') with no member sidebar. The correct password opens the console, which has its own dark header and its own menu — Dashboard, Members, Activities, Lessons — plus a 'Back to member portal' link. A wrong password is refused with a clear message.

☐ PASS ☐ FAIL Notes: _____

25. Leadership is hidden from members

SECURITY

Steps

- Sign in as an ordinary member and look through the whole menu (and the mobile menu).

Expected result

No 'Leadership', 'Admin', 'Members', or 'Activities' management links appear anywhere in the member menu. Members only see member features.

☐ PASS ☐ FAIL Notes: _____

26. Lock the console when finished

LEADER

Steps

- In the console header, tap 'Lock console'.

Expected result

You are returned to the Leadership sign-in screen and must re-enter the password to get back in. Your member session stays signed in.

☐ PASS ☐ FAIL Notes: _____

27. Review the admin dashboard

LEADER

Steps

- With Leadership unlocked, view the Admin Dashboard.

Expected result

You see community statistics and a list of submissions awaiting review, plus shortcut cards to manage activities, manage lessons (with a count of responses waiting), and download this testing manual as a PDF.

☐ PASS ☐ FAIL Notes: _____

28. View the members list

LEADER

Steps

- Open "Members" under Leadership.

Expected result

Every registered member is listed with their name and role.

☐ PASS ☐ FAIL Notes: _____

29. Promote a member to leader (and back)

LEADER

Steps

- On the Members list, use 'Make leader' on a member.
- Then change them back to a member.

Expected result

The member's role updates immediately. Note: you cannot change your own role in a way that locks everyone out — self-promotion is guarded.

☐ PASS ☐ FAIL Notes: _____

30. Open a member's detail page

LEADER

Steps

- From the Members list, tap a member's name.

Expected result

You see that member's submissions and can review them, including playing any private video they attached to a prayer request.

☐ PASS ☐ FAIL Notes: _____

31. Approve a pending submission

LEADER

Steps

- Find a pending submission (dashboard or member page).
- Approve it.

Expected result

The submission is marked approved. Approved public testimonies and prayer requests then show in the community lists.

☐ PASS ☐ FAIL Notes: _____

32. Play a submitted video

LEADER · VIDEO

Steps

- Open the member who submitted a prayer-request video.
- Play the attached video.

Expected result

The private video plays for leadership only. It is never visible to other members.

☐ PASS ☐ FAIL Notes: _____

33. Add a new activity

LEADER

Steps

- Open "Activities" under Leadership.
- Tap "Add activity".
- Enter a name, description, growth area, frequency, and points, then save.

Expected result

The new activity appears under its growth area and immediately becomes available to members. Invalid points (e.g. blanks, decimals, or huge numbers) are refused.

☐ PASS ☐ FAIL Notes: _____

34. Edit an activity

LEADER

Steps

- On the Activities page, tap "Edit" on an activity.
- Change its points or wording and save.

Expected result

The form closes and the activity shows your updated values.

☐ PASS ☐ FAIL Notes: _____

35. Retire an activity

LEADER

Steps

- Tap "Retire" on an activity members no longer need.

Expected result

The activity moves to a 'Retired' section and disappears from members' lists — but any past submissions and points that referenced it are preserved.

☐ PASS ☐ FAIL Notes: _____

36. Restore a retired activity

LEADER

Steps

- In the Retired section, tap 'Restore'.

Expected result

The activity becomes active again and returns to members' lists with its settings intact.

☐ PASS ☐ FAIL Notes: _____

37. Create a lesson with a video and questions

LEADER · LESSONS

Steps

- Open "Lessons" under Leadership, then tap "Add lesson".
- Enter a title, summary, scripture reference, and reading instructions.
- Optionally upload a teaching video from your device.
- Add one or more questions using "Add question", then save.

Expected result

The lesson is created and appears in the leader's lesson list, and immediately becomes available to members on the Lessons page. Note: creating lessons requires an admin/leader role, not just the Leadership password.

☐ PASS ☐ FAIL Notes: _____

38. Edit a lesson

LEADER · LESSONS

Steps

- On the Lessons page, tap "Edit" on a lesson.
- Change its wording or questions and save.

Expected result

The lesson shows your updated content. Members see the new version, and their existing answers are preserved.

☐ PASS ☐ FAIL Notes: _____

39. Retire and restore a lesson

LEADER · LESSONS

Steps

- Tap "Retire" on a lesson, then later tap "Restore" on it.

Expected result

A retired lesson disappears from members' Lessons page but is never deleted — every member's answers stay intact. Restoring brings it back with its questions and answers unchanged.

☐ PASS ☐ FAIL Notes: _____

40. Review and approve lesson answers

LEADER · LESSONS

Steps

- On the Lessons page, open "Review lesson responses".
- Find a member's pending response and read their answers beneath each question.
- Approve it (or reject it).

Expected result

Each response shows the member's name, the questions, and their typed answers. Approving moves it out of 'Awaiting review' into a 'Reviewed' list with an Approved badge. When nothing is waiting, an 'All caught up' message is shown. The admin dashboard's Manage lessons card also shows a count of responses waiting.

☐ PASS ☐ FAIL Notes: _____

41. Change the Leadership password

LEADER

Steps

- In the Leadership area, open the password change control.
- Set a new password and save.

Expected result

The new password takes effect. Signing out and unlocking again requires the new password; the old one no longer works.

☐ PASS ☐ FAIL Notes: _____

42. Access is blocked without the password

SECURITY

Steps

- Sign in as an ordinary member (do not enter the Leadership password).
- Type an admin web address directly, such as /admin/members or /admin/lessons.
- Then sign out completely and try the same address again.

Expected result

While signed in but locked, you are sent to the Leadership sign-in screen instead of the page — no leadership data is shown. While signed out, you are sent to the member login first. No leadership tool can be reached or used without the Leadership password.

☐ PASS ☐ FAIL Notes: _____

SECTION 5

Devices & accessibility

43. Use the app on a phone

RESPONSIVE

Steps

- Open the app on a phone.
- Open the menu and visit several member pages.

Expected result

The layout adapts to the small screen and the mobile menu includes both member pages and, for leaders, the admin pages.

☐ PASS ☐ FAIL Notes: _____

44. Upload a video from a phone

RESPONSIVE · VIDEO

Steps

- On a phone, submit a prayer request and attach a video from the camera or gallery.

Expected result

The video uploads and submits successfully from the phone.

☐ PASS ☐ FAIL Notes: _____

SECTION 6

Known limitations & notes

Password-reset emails

- The reset flow is fully built. Emails send through Resend and require a verified sending domain.
- Until a domain shows 'Verified' in Resend and the sender address uses it, delivery is limited — a leader can reset a member's password manually in the meantime.

Video storage

- Uploads are capped per video, and the free storage tier holds roughly 20–40 phone videos in total.
- Watch usage as the congregation grows; more storage can be added later.

Optional: Google sign-in

- A Google sign-in option is built but switched off until the provider is enabled with Google credentials.
- Email-and-password sign-in works fully without it.
